

## **PLYMOUTH TOWN HALL- PHASE II CONSTRUCTION**

---

### **01-12-16 Project Update**

#### **A. General**

- Phase II Construction for the New Town Hall started, Contractor mobilization is complete.
- Temporary parking restrictions are anticipated as material deliveries require.
- Temporary roadway closures are anticipated during certain construction activities, but access to properties will be maintained and coordinated in advance.
- Excavation Support measures are required that included driving sheet piles. There is daily monitoring for vibration and movement during these activities.

#### **B. Future Activities- January**

- Ongoing Interior Demolition & Salvage @ the 1820 Building (no noise/vibration).
- Ongoing earthwork & excavation (minor noise & vibration).
- Installation of drainage structures in front of the 1820 Building (minor noise & vibration).
- 01-13-16 thru 01-27-16 Installation/Driving of sheet piles for supportive excavation (significant, repetitive noise, some vibration).
