

## **PLYMOUTH TOWN HALL- PHASE II CONSTRUCTION**

---

### **02-15-16 Project Update**

#### **A. General**

- Phase II Construction for the New Town Hall is well underway.
- South Russell Street is being closed from Allerton Street to School Street to facilitate construction activities in the foreseeable future. Access for direct abutters will be maintained. We appreciate your patience.
- Temporary parking restrictions are anticipated as material deliveries require.
- Additional temporary roadway closures are anticipated along Russell Street during certain construction activities, but access to properties will be maintained and coordinated in advance.
- The driving of sheet piles is complete. We thank you for your tolerance. Monitoring for movement continues.

#### **B. Future Activities- February**

- Ongoing Interior Demolition & Salvage @ the 1820 Building (no noise/vibration).
- Installation of drainage structures at the former DPW and Burial Hill Parking Areas (minor noise & vibration).
- Installation of support beams and tie-backs for supportive excavation (minor noise).
- Ongoing earthwork & excavation (minor noise & vibration).
