

**ATM 30 - NStar/Verizon Easement - Od Sandwich Rd**

*minutes from 1/27/16 A&F meeting*

Derek Brindisi, Assistant Town Manager, presented ATM Article 30. In the fall of 2013, Town Meeting approved a land swap with The Pinehills in an area off Old Sandwich Road for the purpose of establishing a municipal emergency communications tower. The 2014 Fall Town Meeting appropriated the capital request for the project. NSTAR Electric Company (d/b/a Eversource) and Verizon New England seek an easement of the town's property at this site for the purpose of installing and maintaining electric and telecommunications service to the communications tower. The granting of an easement requires authorization from Town Meeting.

Question:

Is there any time restriction included with the easement to avoid noise early in the morning or late at night? (S Joyce) Do not believe so, will find out and let the committee know.

**Patrick O'Brien made a motion to recommend ATM Article 30 to Town Meeting. Harry Salerno, second. The motion carries unanimously (12-0-0).**
