Commercial Building Permit Guidelines

In order to submit the building application, you must submit:

- Approved zoning permit
- Completed building permit application
- Confirmation of address and parcel number from the Engineering Department
- Signature from the DPW for water and/or sewage or Health Department for septic
- Control Construction affidavit/affidavits (if applicable)
- Com Check – Energy Efficiency/lighting
- Full set of stamped plans, including dimensions
- Specs for windows, doors and HVAC systems (if applicable)
- Licensed contractor must register his/her MA state contractor's license – a copy of the license included with the building permit application is acceptable
- Provide evidence of current Workers' Compensation Insurance
- Fee – will be calculated from the plans based on the dimensions on the plan

NOTE: incomplete building application will not be accepted
