Fiber Network Expansion Year 3

This project will be phased over several years, total project cost is \$1,517,316.13. We have reached capacity with our current Infrastructure. The increasing demand for building-to-building connectivity, especially for public safety radio and security, requires us to add to our Municipal Network

Strategic Plan

In 2019 we created a Strategic Plan for IT. This essential tool that produces the roadmap for the IT department; ensures that the org structure, IT projects and spending are properly aligned with the strategic vision of Town leadership. In order to deliver on all, the Plan must be an evergreen document that is reviewed and refreshed on a regular basis.

Laserfiche Upgrade and Expansion and Records Digitization Year 3

This project will be phased over several years, total project cost is \$ 1,892,993.36. Digitization and indexing of permanent Town records will promote social distancing and remote access which will protect town employees, residents, and businesses. It will also strengthen local businesses' ability to conduct business transactions during any health and emergency issues such as pandemics.

To date we have configured Laserfiche software to connect with Open Gov and will be finishing up with Inspectional records this year. Year 3 we will start with Planning, Fire and Engineering Very satisfied with the results.
