## **WATER MAIN SHUT DOWN DURING FIRE SERVICE REPAIR AT 140 WARREN AVE**

**FOR IMMEDIATE RELEASE: 2/19/2025**

**PLYMOUTH, MA** – The Town of Plymouth’s Department of Public Works (DPW) Water Division is in the process of repairing the fire service at 140 Warren Ave. To facilitate this repair, the water main needed to be shut down. The shut down began at 9:30am this morning, February 19, 2025. The limit of the shutdown included the area between the Pilgrim Sands Motel and the Eel River Bridge on 3A (the entrance to Long Beach).

The Pilgrims Sands Motel had been notified of the potential interruption of service, but service disruption was not expected. Two fire hydrants were temporarily out of service - one near the entrance to Long Beach and the second in the southern corner of the building at 140 Warren Ave. The repair was estimated to take approximately five hours, with the goal to have the water off for less than three hours.

We appreciated the community’s patience as we made these necessary repairs.
