CURRENT REMOVAL TOTALS FOR THE WEEK OF FEBRUARY 19TH TO FEBRUARY 25TH

FOR IMMEDIATE RELEASE: 2/27/2025

PLYMOUTH, MA – The Town of Plymouth continues to meet regularly with state officials to provide weekly community updates, unless urgent circumstances require earlier communication. Similarly, Town officials continue to remove deceased wildlife when notified and as environmental conditions allow.

If you discover a deceased animal, either domestic or wild, please report to the Town's Health and Human Services Public Health Division by calling **508-322-3339** and to the Animal Control Office by calling **508-888-1186**.

You can also **report deceased birds via SeeClickFix**, the Town's community-driven tool that allows residents to report quality of life concerns in many categories. To report deceased wildlife via SeeClickFix, please follow <https://www.plymouth-ma.gov/938/Report-A-Concern>.

Below are current removal numbers for the week of February 19th to February 25th:

Dates	State Removal
February 19 th to February 25 th	0

Dates	Number of Calls Received	Town of Plymouth Removal
February 19 th to February 25 th	49 calls	35 birds

Town and state officials continue to advise the community to follow personal protective measures that include but are not limited to:

- Keeping all domestic animals away from any deceased birds/wildlife and to avoid contacting deceased wildlife themselves.
- Removal of deceased birds or other wildlife should be left to Town and state officials.
- All backyard poultry should be corralled for the foreseeable future and **not** allowed to roam free range.
- Residents who have poultry should always use protective gear when dealing with their flock (feeding, shoveling feces, etc.) and wash their hands well with soap and warm water after handling.
