CONSTRUCTION CONTROL REVIEW DOCUMENTS

In order to comply with 780 CMR Section 107.6 of the Massachusetts State Building Code (Ninth Edition) for Controlled Construction and to assist this Department in reviewing your application we have provided this Plan Review Package Please use the review record to provide complete code review details. The provisions of 780 CMR 107.6 define the construction controls required for all buildings and structures needing registered architectural or registered professional engineering services and delineate the responsibility of the professional team during construction.

The following structures are exempt from the requirements of 780 CMR 107.6:

1. Any building containing less than 35,000 cubic feet of enclosed space, measured to the exterior surfaces of walls and roofs and to the top of a ground-supported floor, or in the case of a crawl space, to the bottom surface of the crawl space. In the case of basement floors or levels, the calculation of enclosed space shall include such spaces;
2. Any single of two family dwelling or any accessory building thereto;
3. Any building used exclusively for farm purposes (this exemption does not apply if the building is to be used for large assemblies of people or uses other than farm purposes); and
4. Retaining walls less than ten feet in height at all points along the wall as measured from the base of the footing to the top of the wall.

Notwithstanding the exemptions above, professional engineering services shall be required for activities which are deemed to constitute the practice of engineering as defined in M.G.L. c. 112 §81D, except as provided in M.G.L. c. 54A and any legally required profession or as provided in M.G.L. c. 112, §81R.

Sincerely,

Paul McAuliffe
Director of Inspectional Services
Initial Construction Control Document
To be submitted with the building permit application by a
Registered Design Professional
for work per the ninth edition of the
Massachusetts State Building Code, 780 CMR, Section 107

Project Title:                                      Date:

Property Address:

Project: Check (x) one or both as applicable:       New construction  Existing Construction

Project description:

I, MA Registration Number: Expiration date: , am a registered design professional, and I have prepared or directly supervised the preparation of all design plans, computations and specifications concerning:

Architectural  Structural  Mechanical
Fire Protection  Electrical  Other:

for the above named project and that to the best of my knowledge, information, and belief such plans, computations and specifications meet the applicable provisions of the Massachusetts State Building Code, (780 CMR), and accepted engineering practices for the proposed project. I understand and agree that I (or my designee) shall perform the necessary professional services and be present on the construction site on a regular and periodic basis to:

1. Review, for conformance to this code and the design concept, shop drawings, samples and other submittals by the contractor in accordance with the requirements of the construction documents.
2. Perform the duties for registered design professionals in 780 CMR Chapter 17, as applicable.
3. Be present at intervals appropriate to the stage of construction to become generally familiar with the progress and quality of the work and to determine if the work is being performed in a manner consistent with the approved construction documents and this code.

Nothing in this document relieves the contractor of its responsibility regarding the provisions of 780 CMR 107.

When required by the building official, I shall submit field/progress reports (see item 3.) together with pertinent comments, in a form acceptable to the building official.

Upon completion of the work, I shall submit to the building official a ‘Final Construction Control Document’.

Enter in the space to the right a “wet” or electronic signature and seal:

1. Indicate with an ‘X’ the work you reviewed for compliance with the approved plans and specifications and describe in detail
   below.
2. Include NFPA.72 test and acceptance documentation
3. Include applicable NFPA 13, 13R, 13D, 14, 15, 17, 20, 241, etc. - test and acceptance documentation
4. Include NFPA 720 Record of Completion and Inspection and Test Form
5. Include field reports and related documentation
6. Nothing contained within construction control shall have the effect of waiving or limiting the building official's authority to
   enforce this code with respect to examination of the contract documents, including plans, computations and specifications,
   and field inspections.

Description of Construction Work Observed:

a. Describe in sufficient detail the work (i.e. foundation steel reinforcing, kitchen vent system, etc.) and the location
   on the project site, and list if applicable, the submittal documents that pertain to the work which was inspected.
